SECTION 1

LET NUMBERS LEAD THE WAY

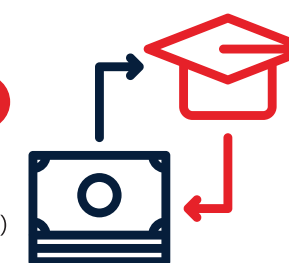

The value of an education has never been more important, and the need for problem solvers has never been more imminent. As the 21st-century workforce continues to evolve, so do we. From our commitment to preparation down to our curriculums, we're focused on preparing our students for what lies ahead.

SECTION 3

IT'S NOT A SIMULATION

At Wentworth, our distinct brand of hands-on, project-based learning makes our curriculum an authentic, real-world platform. We are the University of Now, passionately focused on immersing our students in the problem-solving environments of tomorrow.

THE UNIVERSITY OF

WORKFORCE WIRED

CO-OP PROGRAM

This is hands-on experience that will get you hired. It's as simple as that. Working with some of the largest, most innovative companies in the world, our students have the opportunity to earn while they learn and jump-start their careers. As a required, two-semester program within a four-year degree, it's one of the most comprehensive co-op programs in the country.

97%
of students from the
Class of 2019 accepted a
job or enrolled in a graduate
degree program within six
months of graduation

ACCELERATE

wit.edu/accelerate/about

The Accelerate program was designed to push the boundaries of what's possible. This entrepreneurial incubator allows our students to create, develop, and explore their ideas in ways that convert to real opportunity.

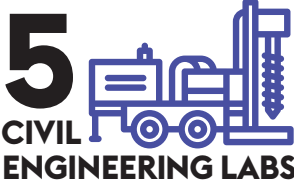

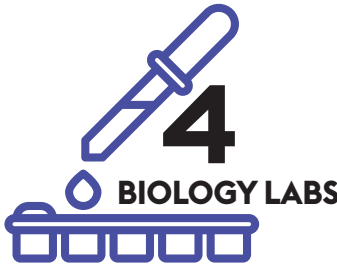

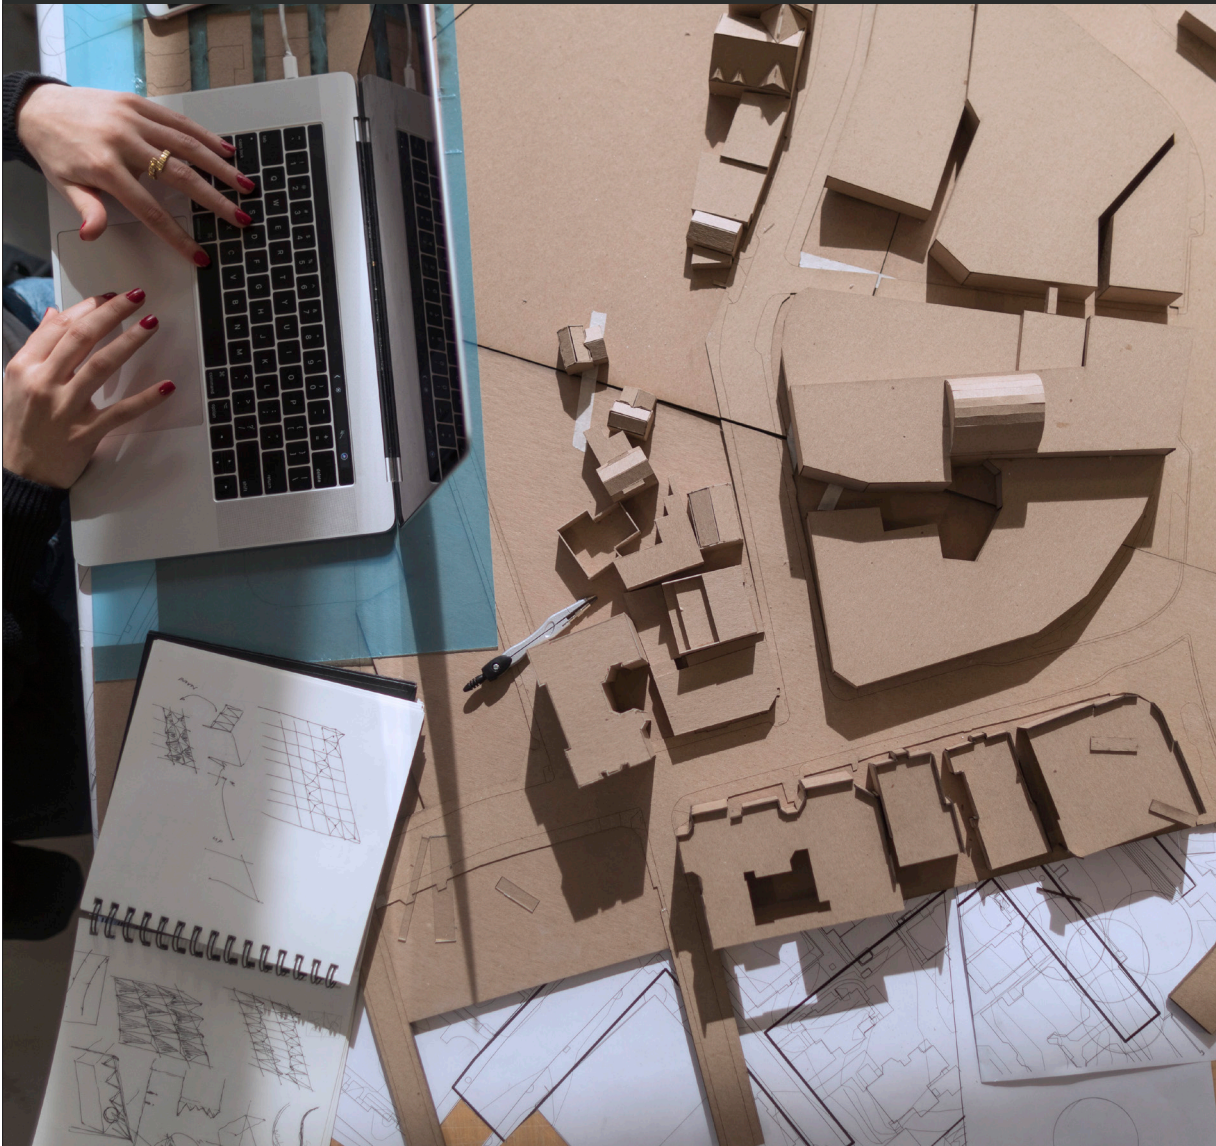

CAMPUS LABS & STUDIOS

Our labs and studio spaces are places of common inspiration for our students. The Wentworth culture of learning and problem solving centers around our students' ability to collaborate, innovate, and create with cutting edge tools they need to further their education.

STUDENT WORK

Luft Versatile N95 Mask

Leif Johan Hauge, Class of 2018

INDUSTRIAL DESIGN

THE INSIGHT

N95 respirators are not designed for children or people with facial hair because a proper fit cannot be achieved.

THE PROBLEM

California wildfires have become such a normal occurrence that residents must keep respiratory protection ready at all times.

THE OBJECTIVE

Design a reusable N95 mask that is comfortable, versatile, and sustainable.

INSPIRATION

PLAN

Institute of Electrical and Electronics Engineers

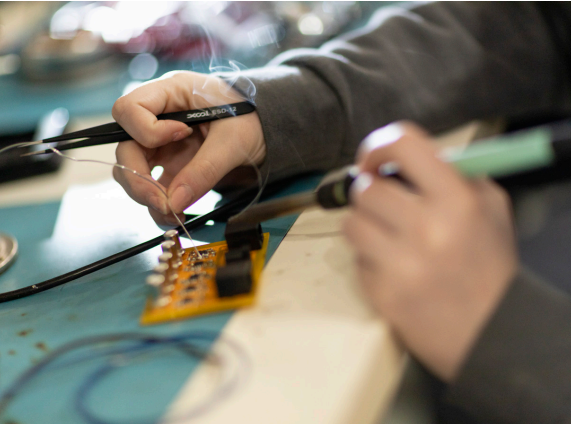

Wentworth Underwater Remotely Operated Vehicle (WUROV) is an interdisciplinary student-led effort operating within Wentworth's student chapter of the Institute of Electrical and Electronics Engineers. The team's goals are to design and construct an underwater Remotely Operated Vehicle (ROV) and to compete in the annual international Marine Advanced Technology Education ROV competition.

ENGINEERING

[witieerov.com](https://www.witieerov.com)

DESIGN

Reimagining the Botanical Research Facility Figueres, Spain

The research facility's design respects the existing structure of the castle by engaging it in a respectful manner, but at the same time clearly defines itself as something new.

UNDERGRADUATE DEGREE PROGRAMS

Architecture

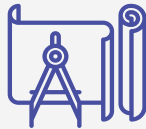

- Concentrations in Adaptive Interventions, Emerging Technologies, or Urbanism
- Architecture students can apply to a one-year Master of Architecture program

Construction Management

- Optional Concentrations in Commercial Real Estate or Facility Management

Industrial Design

Interior Design

COLLEGE OF

ARCHITECTURE, DESIGN & CONSTRUCTION MANAGEMENT

Find the beauty in a blank canvas, understand the potential of a rendering, and be inspired by a deadline.

Applied Mathematics

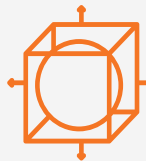

- Option for three- or four-year program

Applied Sciences*

Business Management

- Optional concentrations in Entrepreneurship or Technology Project Management

Computer Information Systems

COLLEGE OF

ARTS & SCIENCES

Search for questions with relentless curiosity and never stop asking.

Biological Engineering*

Biomedical Engineering*

Civil Engineering

Computer Engineering

Computer Networking

Computer Science

- Option for three- or four-year program. Students can apply for a one-year Master of Science in Applied Computer Science

Cybersecurity

Electrical Engineering

COLLEGE OF

ENGINEERING & COMPUTER SCIENCE

Fall in love with the problem before finding a solution.

Electromechanical Engineering

- Five-year program

Engineering

Mechanical Engineering

MINORS

Aerospace Engineering • Applied Mathematics • American Studies • Architectural Studies • Biology • Business Analytics • Business Management (General Business, Entrepreneurship, and Technology Project Management) • Chemistry • Civil Engineering • Computer Networking • Computer Science • Construction Management • Cybersecurity Management • Data Science • Electrical Engineering • Environmental Engineering • Financial Mathematics • Internet of Things • Manufacturing • Media, Culture, and Communications Studies, Performing Arts (offered through Colleges of the Fenway) • Physics • Surveying • Sustainability (offered through Colleges of the Fenway)

*Major satisfies pre-med requirements.

GRADUATE PROGRAMS

OUR GRADUATE PROGRAMS ARE DESIGNED FOR **MOTIVATED, AMBITIOUS PROFESSIONALS** & ARE OFFERED THROUGH ALL OF OUR COLLEGES.

Wentworth offers many 4+1 programs (online, in-person, or hybrid) to allow undergraduates to transition smoothly into a Master's program that can be completed in as little as a year, saving time and money.

We also offer pathways to prepare prospective graduate students for study in one of our STEM fields, regardless of undergraduate major.

PROGRAMS

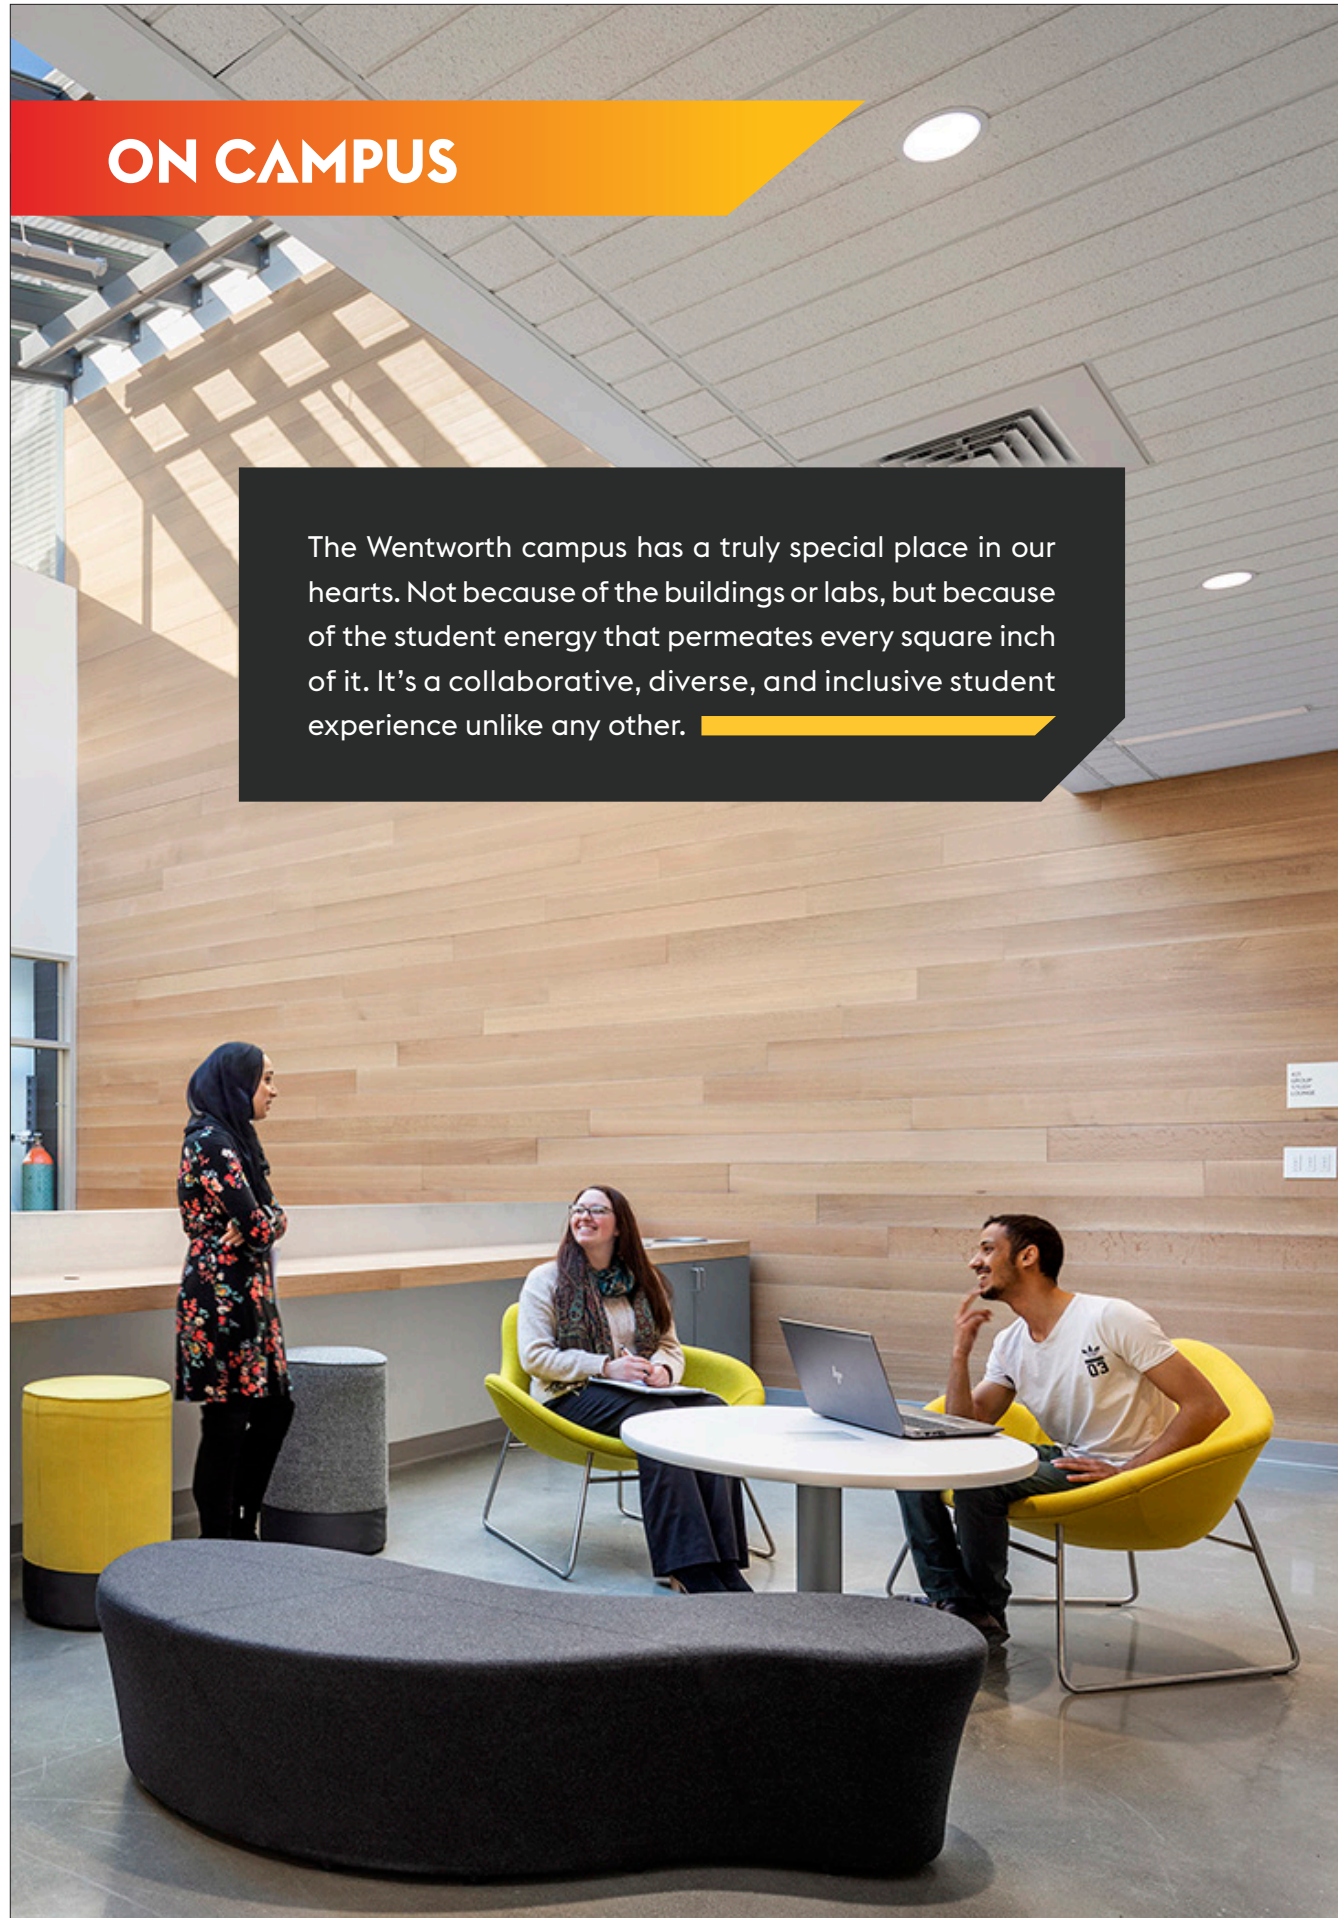

- Architecture
- Applied Computer Science
- Civil Engineering
- Construction Management
- Facility Management
- Project Management
- Technology Management

- Personal Statement / Essay
- Any Extracurricular Activities
- Wentworth is Test-Optional
- Additional Information Is Required If You Are An International or Transfer Applicant

Learn more at wit.edu/admissions/requirements

Who are the Wentworth faculty?

Wentworth faculty are experienced professionals who are passionate about passing on their knowledge and expertise to the next wave of accomplished workplace problem solvers.

How big are classes?

Wentworth classes hold an average of 19 students under the hands-on instruction of industry-seasoned faculty in state-of-the-art labs and studios.

What high school courses are required to apply?

All students must complete a mathematics course through the Algebra II level, at least one laboratory science course (e.g., Biology, Chemistry, or Physics), and four years of English. Applied Mathematics, Applied Sciences, Computer Science, Cybersecurity, and Engineering applicants must also have completed or be currently enrolled in a Pre-calculus course.
