

AutoCad

AutoCAD is a software application for computer-aided design and drafting. Wentworth's AutoCAD course uses this software application to enable students to:

- Understand graphical concepts and projective geometry relating to spatial visualization and communication in design
- Learn to communicate information graphically through the use of AutoCAD
- Master AutoCAD version 2015, including basic and advanced 2-dimensional drawing techniques, 3D drawing and rendering
- Develop a set of drawings for a small architectural project and get introduced to Revit 3D object-oriented software

The 12-week AutoCAD course is conveniently designed for busy adults, with evening meeting times that allow you to quickly gain career-enhancing skills.

Eligibility: To be eligible for consideration, applicants for the Workforce Training in AutoCad should have basic proficiency in using a computer and a basic understanding of Microsoft software.

Application Requirements:

- Online Application

Program Notes: Upon completion, you will earn 4.8 CEU's.

Program Costs: \$1,200 per course

Length of Time to Completion: 12 weeks, class meets once a week
