Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Retention	For the Business Management and Computer Information Systems programs we calculated the retention rate based on first-time full-time enrollment in 2017 and those student's reenrollment in the program for fall of 2018. This aligns with retention definitions for IPEDS.
Retention Continuing Education	Project Management is designed to be a part-time program for working professionals. Due to the population that enters into this program we calculate the retention rate semester to semester. This rate is based on enrollment in Fall 2018 and continued enrollment in Spring 2019.
