

## Computer Science (BCOS) Tracking Sheet Catalog Year 2013-2014

Note: This is an *example* four year course sequence: failed/withdrawn courses or transfer credits will affect your schedule, and many courses are available in other semesters

Fall	Spring	Summer

<b>Freshman</b>		R-L-C*																																																																																																																																										
COMP128	Computer Science I	3-2-4																																																																																																																																										
COMP105	Introduction to Networking and Systems	3-2-4																																																																																																																																										
ENGL100	English I	4-0-4																																																																																																																																										
SCI_EL	Non-Tracked Science Elective <sup>1</sup>	3-2-4																																																																																																																																										
<b>Sophomore</b>		R-L-C*																																																																																																																																										
COMP278	Computer Architecture	3-2-4																																																																																																																																										
COMP285	Object Oriented Programming	3-2-4																																																																																																																																										
MATH295	Engineering Calculus II	4-0-4																																																																																																																																										
SCI_TRAC	Tracked Science Elective II <sup>3</sup>	3-2-4																																																																																																																																										
<b>Junior</b>		R-L-C*																																																																																																																																										
COMP438	Assembly Language	3-2-4																																																																																																																																										
COMP501	Introduction to Programming Languages	3-2-4																																																																																																																																										
MATH440	Linear and Vector Algebra <sup>5</sup>	4-0-4																																																																																																																																										
HUSS	Humanities/Social Science Elective <sup>4</sup>	4-0-4																																																																																																																																										
<b>Senior</b>		R-L-C*																																																																																																																																										
COOP600	Cooperative Work Semester II (Required)	R-L-C*																																																																																																																																										
		R-L-C*																																																																																																																																										
COMP201	Computer Science II	3-2-4																																																																																																																																										
ENGL130	English II	4-0-4																																																																																																																																										
MATH 285	Engineering Calculus I	4-0-4																																																																																																																																										
SCI_TRAC	Tracked Science Elective I <sup>2</sup>	3-2-4																																																																																																																																										
		R-L-C*																																																																																																																																										
COMP310	Data Structures	3-2-4																																																																																																																																										
COMP355	Database Management Systems	3-2-4																																																																																																																																										
MATH410	Discrete Mathematics	4-0-4																																																																																																																																										
HUSS	Humanities/Social Science Elective <sup>4</sup>	4-0-4																																																																																																																																										
		R-L-C*																																																																																																																																										
COOP400	Cooperative Work Semester I (Required)	R-L-C*																																																																																																																																										
		R-L-C*																																																																																																																																										
COMP566	Software Engineering	3-2-4																																																																																																																																										
COMP---	Advanced Computer Science Elective <sup>6</sup>	3-2-4																																																																																																																																										
COMP---	Advanced Computer Science Elective <sup>6</sup>	3-2-4																																																																																																																																										
HUSS	Humanities/Social Science Elective <sup>4</sup>	4-0-4																																																																																																																																										
		R-L-C*																																																																																																																																										
COOP300	Pre-Cooperative Work Semester (Optional)	R-L-C*																																																																																																																																										
		R-L-C*																																																																																																																																										
COMP362	Operating Systems	3-2-4																																																																																																																																										
COMP414	Algorithm Design and Analysis	3-2-4																																																																																																																																										
MATH505	Probability and Statistics for Engineers	3-2-4																																																																																																																																										
HUSS	Humanities/Social Science Elective <sup>4</sup>	4-0-4																																																																																																																																										
		R-L-C*																																																																																																																																										
COMP655	Senior Project in BCOS	1-6-4																																																																																																																																										
COMP---	Advanced Computer Science Elective <sup>6</sup>	3-2-4																																																																																																																																										
COMP---	Advanced Computer Science Elective <sup>5,6</sup>	3-2-4																																																																																																																																										
PHIL450	Ethics	4-0-4																																																																																																																																										

\*R-L-C means Recitation, Lab, and Credit hours

Updated: April 2014

### Notes

<sup>1</sup>Any 4 credit science elective, except for PHYS210 and PHYS220

<sup>2</sup>See list: <http://www.wit.edu/ssc/registration/reginfo/elective-list.html>

<sup>3</sup>The second course in the track must build upon the first course

<sup>4</sup>At least one course must be in humanities, at least one in social sciences

<sup>5</sup>Fall Advanced CS electives & Summer MATH440 sections are available

<sup>6</sup>Choose any non-required computer science or networking course

<sup>7</sup>The faculty/staff directory is here: <http://profiles.wit.edu>

### Important Contacts (other than your advisor)<sup>7</sup>

COMP	Anthony Alamia (Academic Coordinator)	x4272
COMP	Michael Oudshoorn (Department Chair)	x4275
